

PILING DRILLS

TAD-32

FEATURES

- Excavator-mounted auger drive attachments for cast in-situ piling and other earth drilling work. Especially suitable for work in confined spaces while still being good at reaching over obstacles. The telescopic design keeps the machine low and allows working on sites with limited headroom without compromising on drilling depth.
- Hydraulically operated telescopic drill with two extension.
- Available with 2000 mm lead augers for different soil conditions including 'clay', 'rock' and 'heavy duty'.
- Controlled with the MOVAX Control System (MCS™)
- Available with the MOVAX Information Management System (MIMS™)

TECHNICAL DATA

Weight w/o adapter and auger	kg	3200
Height w/o auger	mm	3855
Depth	mm	1673
Width	mm	1013
Oil flow rate	l/min	75 - 250
Max return pressure	bar	5
Hole depth	m	9
Hole diameter *	mm	400 - 1000
Drill speedrange	rpm	11 - 74
Side tilt angle	°	+/- 30
Torque	Nm	30000
Crowd force	kN	15
Extraction force	kN	30

**depending on soil conditions and tooling*
